

Lagoon Bar and Restaurant Mini Stage Rally 2020
Final Instructions No 3. 24/01/20

Safety Tracking System (STS)

The following is issued as an addendum to Appendix 25 Art 1.6 of the Motorsport Ireland 2020 Green Book.

General

All cars must be fitted with the STS equipment as issued by the MI appointed system provider. The STS devices will be distributed to competitors prior to mechanical scrutineering. The competitor is responsible for the STS equipment as issued to them by the system provider. In the event of untimely return or damage to the STS equipment, a fee (max €200) may be charged by Motorsport Ireland.

Competition cars not equipped with functioning STS equipment will not be allowed to start the event.

Failure to have correctly installed and connected equipment or any manipulation or disconnecting of the equipment in the rally car during the event will result in exclusion from the event.

Installation and Inspection.

The crew are responsible for the installation of the STS equipment and the information stickers in the rally car as indicated in the STS User's Guide supplied.

Personnel, appointed by the system provider, will inspect the equipment to ensure it has been fitted correctly and is functioning.

Incorrectly fitted equipment must be rectified before the start of SS 1.

System provider personnel are authorised to enter pre event Parc Ferme in order to check the correct installation and functionality of the STS equipment in competition vehicles.

Use.

If a crew stops in a special stage, the "SOS" or "OK" button must be activated as soon as possible but within a maximum of 30 seconds.

For infringement in the usage of "SOS" and "OK" signals, the team/crew may be subject to penalties as per App. 29, Art. 3.5.1 of the current Motorsport Ireland Yearbook.

In a situation where a crew receives an electronic Red Flag (Stage Stopped) signal, the "OK" button must be activated in order to confirm 'message received' to rally control centre. The crew must immediately reduce speed and proceed non-competitively to the stage finish or as directed by an official.

Return of STS equipment.

The complete STS device kit must be removed from the car by the crew in Parc Fermé at the end of rally and returned to the system provider.

In case of an earlier retirement the competitor must remove and return the complete STS device kit to the system provider.

Appendix 1 of this Final Instructions contains form to be signed by competitor at documentation scrutiny.

Johnny Baird
Clerk of the Course

Lagoon Bar and Restaurant Mini Stage Rally 2020
Final Instructions No 3. 24/01/20

APPENDIX 1

Safety Tracker System Equipment

The competitor shall be responsible for the tracking equipment issued to them.

Should the equipment not be returned to the system provider in the event Service Area, Post event Parc Ferme or other designated collection point, within 30 minutes of the crews scheduled check in time at post event Parc Ferme,

or

in the event of exceptional circumstances, an alternative mutually agreed arrangement for the return not be made with the system provider, within 30 minutes of the crews check in time at post event Parc Ferme,

or

should the equipment be damaged or lost,

I acknowledge that a fee (max €200) may be charged and be payable to Motorsport Ireland within seven days of the date of the event.
